

NEW ORLEANS ACADEMIC GAMES LEAGUE

Project Give a Game

Project Give a Game is designed to provide schools that are new to our league with a solid foundation to start and grow their Academic Games program. With your help, we will supply schools with the games and materials needed to get their teams started. We're asking that you donate \$35—the cost of an Equations or an On-Sets game; however, donations of any amount are greatly appreciated.

All donations made to the New Orleans Academic Games League are tax deductible.

Help us to expand Academic Games in the Greater New Orleans area by participating.
