Reminders/Comments

1. Please bring all your games to every match.
2. Junior Division will play teams of 4 in order to have 9 teams. The alternative was 7 teams of 5. With 7 teams, some teams must play twice during four rounds since there must be a 3-way match every round. Six is a better number than seven because teams can play every other team once. After the first round, all Senior matches will be two-way. That can't happen with seven teams in a division.
3. Remember that, if you have a player on a conglomerate team, you may use that player any round to replace an absent player on your complete teams.
4. Variations will be phased in according to the list sent to you recently via e-mail.
5. If there are any changes in your entries, please let Brother Neal know as soon as you arrive at Jesuit on Tuesday so that any needed modifications in the matches can be made immediately.
6. The \$3/player registration fee is due by the second playing date, **March 6**. Please put your payment and a completed registration form/invoice in an envelope with the school name on it and turn in to Brother Neal at either Round One or Two/Three.
